**October 13<sup>th</sup> – U.S. Navy Birthday (248<sup>th</sup>)**

Created by Congress in April 1798, the Department of the Navy has its earliest roots in the Continental navy formed in 1775 by General George Washington to defend the American colonies from British attack.

**October 26<sup>th</sup> – Day of the Deployed**

National Day of the Deployed annually honors the United States military personnel deployed around the globe. The designation recognizes all of the brave military personnel who have been deployed, are sacrificing, or have sacrificed their lives to defend our country.

**October 27<sup>th</sup> – Navy Day**

Navy Day was originally sponsored by the Navy League 1922. Navy Day is designed to give recognition to the naval service. The Navy League of New York proposed that the official observance be on 27 October in honor of President Theodore Roosevelt, who had been born on that day.

**The difference between the Navy Birthday and Navy Day:**

The birthday of the U.S. Navy is important as it is the beginning of the formation of this essential military service in American history, while Navy Day celebrates all Naval members who have served as part of this country's naval forces.
